Form 10-Q for Quarter Ended December 31, 2016

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, page 18

1. In future filings, please expand your explanation of material drivers of changes in your financial results to address not only the causes of the changes but the reasons behind why the causes occurred. For example, you disclose that your financial results were negatively impacted in the nine months ended December 31, 2016 from lower IBW revenue "due to lower overall sales of Remote units to existing customers and decrease in support services revenue." Such a discussion should also address why customers' spending dropped and whether management believes this to be a seasonal event going forward. We note your disclosure that quarter to quarter comparisons of your results of operations are not necessarily indicative of results that

may be expected for fiscal year 2017; however, your revenues have been steadily decreasing throughout fiscal 2017.

We remind you that the company and its management are responsible for the accuracy and adequacy of their disclosures, notwithstanding any review, comments, action or absence of action by the staff.
