SECTION 8 - OTHER EVENTS

ITEM 8.01 OTHER EVENTS.

On August 26, 2004, Westell Technologies, Inc. (the "Company") entered into an amendment to its existing contract with Verizon (the "Amendment"). Under the Amendment, although Verizon is not obligated to any volume purchase commitment, Verizon agreed to purchase from the Company at least 95% of its future requirements for Pro Line 6100 Dual Port Modems which Verizon provides to its residential and small business customers for use in their premises until December 31, 2005. The Company believes that it currently supplies over 95% of Verizon's DSL modem requirements for residential and small business customers. Prior to this Amendment, Verizon was not obligated to source its Pro Line 6100 Dual Port modem requirements from the Company.

ProLine DSL modems are remotely manageable using the DSL Forum TR-069 standard. The two companies have had an existing supplier agreement in place for over five years for the Company's WireSpeed™ modem products.
