- Cash and cash equivalents increased by \$3.2 million in the quarter to \$49.2 million.

Westell Technologies Reports Profitable Fiscal 2010 First Quarter Results

AURORA, IL, July 21, 2009 – Westell Technologies, Inc. (NASDAQ: WSTL), a leading provider of broadband products, gateways and conferencing services, today announced results for its fiscal first quarter ended June 30, 2009. Total revenue for the fiscal first quarter was \$40.5 million, up 6.3% from \$38.1 million in the same quarter last year. Net income during the quarter was \$1.6 million, or \$0.02 per diluted share, compared to a net loss of \$5.5 million, or a loss of \$0.08 per diluted share, in the same period last year.

On a non-GAAP basis, revenue for the fiscal first quarter was \$53.8 million⁽¹⁾, up 41.4%⁽¹⁾ from the same quarter last year. The increase in the current quarter compared to the prior-year quarter is due primarily to shipments of UltraLine Series3 gateways, which started in the fiscal third quarter of 2009. Non-GAAP net income during the fiscal first quarter was \$2.9 million⁽¹⁾, or \$0.04 per diluted share⁽¹⁾, compared to a non-GAAP net loss of \$5.6 million⁽¹⁾, or a loss of \$0.08 per diluted share⁽¹⁾, in the prior year. The non-GAAP earnings per share were positively impacted by increased shipments, higher gross profits and lower operating expenses that resulted from recent restructuring and cost containment initiatives.

Total cash and cash equivalents were \$49.2 million at June 30, 2009, up \$3.2 million compared to the balance at March 31, 2009.

“We are pleased with our solid results for the first quarter of fiscal 2010, which is the first profitable quarter for Westell since March of 2007,” commented Rick Gilbert, President and Chief Executive Officer of Westell Technologies. “Although current economic conditions make future financial results very hard to predict, we remain rigorously focused on profit and cash generation for the remainder of the fiscal year.”

The Company supplements its financial analysis of the business using non-GAAP measures which may provide additional insight into current operating performance. The presentation at the end of this press release includes financial tables that reconcile non-GAAP measures to GAAP measures. There are two non-GAAP adjustments affecting the fiscal first quarter of 2010. First, during the quarter, the Company continued to ship UltraLine Series3 next-generation gateways which support a major customer’s fiber-to-the-home (FTTH) offering. Fiscal first quarter revenues totaling \$13.3 million, together with certain related direct costs for these product shipments, are deferred and not recognized in the quarter, based on the required accounting for related software deliverables. This adjustment adds \$0.7 million to non-GAAP net income for the quarter. Second, the Company recognized restructuring expense of \$0.6 million in the quarter that represents the termination benefits for 50 employees whose positions were eliminated to reduce ongoing operating costs.
